## Ricerche di Partner Tecnologici e Commerciali

Presentiamo di seguito alcune opportunità di collaborazione internazionale pubblicate nella banca dati di Enterprise Europe Network.

### Richieste e offerte di tecnologie

<b>1) Title</b>	<b>A Dutch company is looking for new technologies and materials for the development of sustainable salad trays.</b>
POD Reference	TRNL20220328016
Summary	A Dutch food company produces a large amount of private label salads for leading European food partners. Most of the packaging is made from plastic, which puts a great burden on our environment. The company is looking for ways to find an innovative packaging design that is more sustainable. Companies, academics, or inventors are sought via a technical cooperation agreement or a license agreement. This technology request is part of an innovation challenge.

<b>2) Title</b>	<b>A French company is looking for eco-responsible plastics and packaging suppliers or manufacturers</b>
POD Reference	TRFR20220321011
Summary	A French company is looking for eco-responsible packaging for their different ranges of products. They are specialised in complementary feed and their products are: liquids, pellets, creams, gels, pastes, etc. They are looking for some buckets, pots, bottles, barrels, tubes and syringes in different sizes, in aluminum, recycled plastic, vegetal plastic or any other eco-responsible material. The company wants to establish a commercial agreement with technical assistance.

<b>3) Title</b>	<b>A Polish SME that produces hypoallergenic cosmetics is looking for manufacturers and organizations to design, construct and assemble the line for the production of cosmetics. Form of cooperation - commercial agreement with technical assistance.</b>
POD Reference	TRPL20220318014
Summary	A Polish company that produces fully vegan, hypoallergenic creams made of 100% unrefined oils, intended for especially demanding customers. In connection with the planned production automation forced by the increasing demand for the product, the company is looking for cooperation with the design and production company that manufactures stainless steel tanks and devices, which could design, construct and assemble the line for the production of cosmetics with a dosing pump and a cooling jacket.

<b>4) Title</b>	<b>A Dutch food manufacturer is looking for a more sustainable alternative for APET packaging</b>
POD Reference	TRNL20220404038
Summary	A Dutch manufacturer of cooled savory food products, is looking for alternative materials for their packaging with a lower ecological footprint. Companies are sought in the framework of commercial agreement with technical assistance or a technical cooperation agreement.

<b>5) Title</b>	<b>100% fossil free packaging material made from cocoa-husk, a by-product of chocolate production</b>
POD Reference	TRSE20220317044

Summary	A bean-to-bar chocolate producing plant in northern Sweden is looking to find a 100% fossil free packaging material made from cocoa-husk, a by-product of chocolate production. Manufacturing agreements are foreseen for market ready solutions, but the company is also interested in technical/research agreements concerning not yet fully developed solutions.
---------	---

<b>6) Title</b>	<b>Swedish company offering orthopedic products for animals looks for an app to scan injuries</b>
POD Reference	TRSE20220304023
Summary	A Swedish manufacturing company providing orthopedic products for animals looks for an app developed specific to scan injuries. The uploading of the scans is done either to a cloud service or the company's server. This will shorten lead times from scanning to production of orthoses, which will decrease the suffering for the animals. The company is looking for an Iphone app developer that can provide either a commercial agreement with technical assistance or a license agreement.

<b>7) Title</b>	<b>Off-grid autonomous station (5-30kW) based on renewable energies for green mobility to recharge bicycles/motorcycles/cars or for stationary use as power generator during ephemeral events</b>
POD Reference	TOFR20220401016
Summary	An innovative young French SME offers a new generation of mobile power station running with batteries powered by photovoltaic panels and hydrogen fuel cell. The station can be set up in less than a day in isolated areas (mountain, countryside) for example to daily recharge small vehicles or replace generators sets during exhibiting events. Partners willing to be equipped (municipalities, companies, event organisers, tourism offices) are sought for commercial agreements with technical assistance.

<b>8) Title</b>	<b>A Polish medical university is looking for commercial agreement for its innovative device used in surgical treatment of scoliosis</b>
POD Reference	TOPL20220331027
Summary	A Polish medical university has designed and produced a surgical instrument that is used for the surgical treatment of scoliosis. As it is ready to be introduced to the market, the university is looking for commercial and license agreements with foreign partners worldwide.

<b>9) Title</b>	<b>French company produces 100% natural coloured liquid vegetal food supplements based on plant or algae extracts under white label</b>
POD Reference	TOFR20220401010
Summary	A French SME has specialised in formulation and custom packaging of natural liquid food supplements based on vegetal extraction without preservatives or heat treatments. The SME can produce small bottles or glass bulbs, from small to large series. Their specialty is a blue liquid extract of spirulina titrated in phycocyanin. Companies, brands or laboratories wishing to extend their range as a finished product for the consumer, are sought for commercial agreements with technical assistance.

<b>10) Title</b>	<b>Boron-based formulations for the treatment of muscular dystrophies and muscle injuries</b>
POD Reference	TOES20220324020
Summary	A Spanish biomedical research network center has developed a new therapeutic strategy for the treatment of pathophysiological conditions which affect skeletal muscle, and is looking to establish license, research cooperation, or joint venture agreements.

<b>11) Title</b>	<b>Dutch SME offers cooperation and technology for production improvement of biopharmaceutical proteins and cell line development.</b>
------------------	--

POD Reference	TONL20220321025
Summary	A Dutch company offers a generally applicable technology to generate superior cell-lines for biopharmaceutical protein production. Application of the technology allows cultured mammalian cells to produce more recombinant protein per cell. The company is looking for cooperation projects involving product and production technology development with biotech, pharma and diagnostic companies via a research cooperation agreement or a technical cooperation agreement.

<b>12) Title</b>	<b>Danish SME offers grease layer reduction technology in exhaust ducts for catering companies</b>
POD Reference	TODK20220317052
Summary	Danish SME offers grease layer reduction technology in exhaust ducts for catering companies. The Danish SME's product: The Power Pack system is able to be mounted in large scale kitchens and thereby help catering companies in reducing maintenance costs for exhaust ducts. The Danish SME is looking to cooperate under a commercial agreement with European partners who would be interested in their service.

### **Richieste e offerte di collaborazioni commerciali**

<b>1) Title</b>	<b>A French sales agency specialised in the healthcare industry seeks manufacturers of medical devices and equipment for commercial agency/distribution agreements for France and the MEA markets.</b>
POD Reference	BRFR20220404041
Summary	A French sales agency specialised in the promotion and distribution of innovative medical devices would like to establish a commercial agency/distribution agreement with manufacturers in the medical, healthcare, or pharmaceutical industry, interested to expand their activities in France and in the Middle East & Africa (MEA) region. Other related industries like ecology will also be considered.

<b>2) Title</b>	<b>A full-service distribution with e-commerce marketing of company based in Poland which seeks different products for distribution on the Polish market</b>
POD Reference	BRPL20220404002
Summary	The Polish e-commerce company is offering its distribution services in Poland for manufacturers of a different group of products. The platform is run by a marketing agency and provides sales, packing, and distribution services as well as all logistics aspects of cooperation. The company is looking for various products from various industries. The company seeks distribution services agreements with companies, interested in online distribution on the Polish market.

<b>3) Title</b>	<b>Belgian company is offering commercial agency agreement for food products and is looking for manufacturers of food products for manufacturing agreement</b>
POD Reference	BRBE20220330008
Summary	The Belgian company specialised in the food sector is offering commercial representation in Belgium and on other export markets, in particular in Netherlands and Luxembourg. The company is also in contact with food distributors and is looking for food manufacturers for manufacturing agreement.

<b>4) Title</b>	<b>German company offers representation and distribution for electronic and electromechanical components and assemblies</b>
POD Reference	BRDE20220328052

Summary	A northern German SME is a well established representative and distributor of active and passive electronic components as well as electromechanical components and assemblies to a diversity of industries. To complement the portfolio, the company is offering cooperation in form of commercial agency and distribution services agreements covering the northern half of Germany to producers of electronic components such as sensors, magnets, relays, clamps, switches and fuses.
---------	--

<b>5) Title</b>	<b>Danish supplier of designer furniture searching for production facilities</b>
POD Reference	BRDK20220316004
Summary	The Danish company designs and develops expensive designer furniture and search for manufacturers. The Danish company is flexible and helps suppliers in all questions. The Danish company is searching for a supplier agreement.

<b>6) Title</b>	<b>A Finnish SME is searching for a plastic mailer bag manufacturer from Europe.</b>
POD Reference	BRFI20220308033
Summary	A Finnish SME offers packaging-as-a-service and they are now searching for a plastic mailer bag manufacturer from Europe with material expertise and handling of polypropylene (PP) and polyethylene terephthalate (PET). Also seam welding, sewing and printing capabilities are expected. The preferable cooperation model is a manufacturing agreement.
